

SEP PROTECTED FUTURE

Our mission is to protect what you have achieved to free your mind
and focus on your future!

SEP sesam Hybrid Backup & Recovery

Data Security in the Public Sector under the Challenges of Cybercrime, Backdoors, GDPR and Scalability

Safety

There are only two types
of companies:
Those that have been
hacked, and those that will be.

Robert Mueller, FBI-Direktor, 2012

Future-proof backup at the DIKOM /

Digital local authorities of Brandenburg

A city is paving the way into a digital future:
"connected, open and secure":

- Smart City
- E-government
- Mobility on demand

The backup scenario also had to be designed
for growth, cost-efficient and future-proof!
